Career Objective

BCA graduate skilled in Java, OOP, JDBC, Hibernate, SQL, PL/SQL, HTML5, CSS, JavaScript, seeking a software development role to apply full-stack web development, database management, and responsive front-end/back-end programming skills while contributing to efficient, modern, and optimized applications in a collaborative environment.

Education

- Bachelor of Computer Applications (BCA): Jindal College for Women, Bengaluru – 2025
- Senior Secondary (Science): Kendriya Vidyalaya No.1, Bengaluru – 2022

Technical Skills

- Programming & Technologies:** Java, OOP, JDBC, Hibernate, Collections, Exception Handling, Access Modifier.
- Database:** SQL, PL/SQL, Joins, Subqueries, Stored Procedures, Indexing, DML, DQL, TCL, DDL, DCL.
- Web Technologies:** HTML, CSS, JavaScript, DOM, asynchronous operations - callbacks, promises, async/await.
- Tools & Platforms:** VS Code, Eclipse, XAMPP, MySQL Workbench, Power BI, and Microsoft Excel, Git.

Projects

Restaurant Management System | HTML, CSS, PHP, MySQL

A web-based POS system built to streamline restaurant operations.

- Developed Admin, Staff, Billing, and Ordering modules with full CRUD functionality using PHP.
- Implemented MySQL database integration, handling real-time order processing, menu management, and billing workflows.
- Optimized data validation and automated manual billing tasks to improve accuracy and consistency.

Driftora Quest – Travel Website | HTML, CSS, JavaScript, Tailwind CSS

A responsive travel website featuring curated tours and user-focused interactions.

- Designed a modern UI with Tailwind CSS, integrating light/dark mode and reusable UI components.
- Implemented search filters, DOM manipulation, and interactive elements using JavaScript.
- Enhanced performance and cross-device responsiveness with optimized CSS and modular JS.

Internship Experience

Front-End Development Intern | Siddhrans Technology | Bengaluru | Jun 2024 – Jul 2024

- Built responsive pages using HTML5, CSS, Tailwind, improving layout and mobile usability.
- Developed reusable UI components with clean code and modern design standards.
- Debugged UI issues and learned cross-browser compatibility, performance optimization, and Git workflows.

Non-Coding Internship | Siddhrans CRM & BharatBuy.shop | 2024

- Managed product catalogues and inventory records, ensuring accuracy and consistency.
- Maintained CRM databases and documentation, supporting operational efficiency and customer data tracking.
- Enhanced data management skills, attention to detail, and process optimization.

Certifications

- Cyber Security: Threats and Governance** – Cybersecurity fundamentals and risk management
- Microsoft Excel: Advanced Spreadsheet Skills** – Data analysis, formulas, and reporting
- Power BI: Data Visualization and Dashboard Design** – Interactive dashboards and visual analytics

Soft Skills

- Leadership:** Led tasks and coordinated team activities for efficient project delivery.
- Problem Solving:** Applied logical thinking and analytical skills to resolve technical challenges.
- Time Management:** Prioritized tasks and met deadlines in structured workflows.
- Team Collaboration:** Worked effectively in team environments using collaborative tools and practices.

Achievements & Extracurricular Activities

- Organized Cyber Threat Awareness Program demonstrating cybersecurity leadership.
- Conducted Brand Buzz Contest showcasing event management and teamwork.
